Location : Cali, Colombia

ABOUT ME

As a systems engineer candidate at Universidad del Valle, I am looking for innovative projects that offer technological solutions to improve people's lives. I enjoy collaborating in teams, learning about new technologies and I have a deep passion for Full-Stack application development. In addition, I have experience as a freelance web developer.

WORK EXPERIENCE

IT Intern

Copservir LTDA , Cali, Colombia - 2023 - 2024

As an IT intern, I contributed to the development and improvement of modules with PHP, jQuery and Bootstrap. I also managed MySQL databases and Linux servers.

Achievements : I contributed significantly to the development of web applications by optimizing the code, implementing new features, and fixing bugs to strengthen the functionality of the systems.

Website Administrator

Universidad del valle, Cali, Colombia - 2019 - 2023

Website administration and maintenance using technologies such as HTML5, CSS, JavaScript and Joomla.

Achievements : Providing high levels of satisfaction and excellent teamwork.

Freelancer - Web Developer

Mr.Locksmith, Utah, EEUU - 2022

I led the design, development and deployment of a responsive and engaging website that reflected the vision and goals of the Mr.locksmisth company.

Achievements : As a result of my contribution, the new website helped Mr.locksmith strengthen its online presence and achieve an increase in traffic, improved lead generation, etc. [Link](#)
