Carlos Andrés Cáceres Campo

I am a Software Development Technician from SENA who is looking to be part of innovative projects that help people in their daily lives through technological solutions. I enjoy working in teams and learning new technologies, whether it be from the Front-end or Back-end. I am passionate about Full-Stack application development and have done freelance work as a web developer.

WORK EXPERIENCE

Website Administrator

Universidad del valle, Cali - 2019 - 2022

Website administration and maintenance using technologies such as HTML5, CSS, JavaScript and Joomla.
Achievements : Providing high levels of satisfaction and excellent teamwork.

Freelancer - Web Developer

Mr.Locksmith, Utah - 2022

I led the design, development and deployment of a responsive and engaging website that reflected the vision and goals of the Mr.losckmisth company.
Achievements : As a result of my contribution, the new website helped Mr.locksmith strengthen its online presence and achieve an increase in traffic, improved lead generation, etc. *Link* 💻
