ABOUT ME

As a systems engineering candidate at Universidad del Valle, I am dedicated to finding innovative projects that offer technological solutions to improve people's lives. With over a year of experience as a developer, I have honed my skills in Full-Stack application development. I thrive in collaborative team environments, enjoy learning about new technologies, and am passionate about creating impactful solutions through my work.

WORK EXPERIENCE

Software Developer - Dev.pro , Las Vegas, EEUU - 2024

- Develop and maintain integrations with APIs and third-party services using NodeJs, Express and mongoDB.
- Implement and maintain cloud solutions using Azure.
- Implement new features and improve web applictaion efficiency using Zend php, javascript, mongoDB and docker.
- Resolve support tickets from users.

Achievements : I improved the connectivity and functionality of various applications by developing integrations with APIs and third-party services, I aslo learn how to implement cloud solutions using Azure, optimizing efficiency.

IT Intern - Copservir LTDA , Cali, Colombia - 2023 - 2024

- As an IT intern, I contributed to the development and improvement of modules with Php, javascript, jQuery, and Bootstrap.
- Managed MySQL databases and Linux servers.

Achievements : I contributed significantly to the development of web applications by optimizing the code, implementing new features, and fixing bugs to strengthen the functionality of the systems.

Website Administrator - Universidad del valle, Cali, Colombia - 2019 - 2023

- Administered and maintained websites using HTML5, CSS, and JavaScript, ensuring a seamless user experience and optimal performance.
- Managed content and configurations on Joomla-based websites, enhancing site functionality and user engagement.
- Conducted regular updates and troubleshooting to maintain website security and performance, addressing issues promptly to minimize downtime.

Achievements : Providing high levels of satisfaction and excellent teamwork.

Freelancer - Web Developer - Mr.Locksmith, Utah, EEUU - 2022

- Led the design, development, and deployment of a responsive website that reflected the customers standards of Mr.Locksmith.
- I Utilized React to create a dynamic user interface and enhance the user experience.

Achievements : As a result of my contribution, the new website helped Mr.locksmith strengthen its online presence and achieve an increase in traffic, improved lead generation, etc.
